INSPIRATION is a new early maturity conventional winter canola hybrid with excellent winter hardiness that has demonstrated above average yields in multiple regions since 2012.

KEY CHARACTERISTICS

- Vigorous fall growth
- High yield potential
- Excellent winter hardiness
- Early maturity
- Good standability
- Suitable for higher yielding sites with deep soils
- Responsive to fungicides in humid environments
- Good blackleg resistance
- Typical height 50” - 60”
- High germination and purity
- Medium oil content
- Large seed size
- Adaptable to wide row production
- Large canopy hybrid – excellent interlocking for direct harvesting
- Developed by Rubisco Seeds

Rubisco Seeds
- PRODUCT, EQUIPMENT, AGRONOMY SUPPORT

Bottom line, we want to see farmers grow a successful crop and reach highest yields possible

HYBRID TECHNOLOGY MEETS HYBRID AGRONOMY
